

# GET YOUR BUSINESS SANITIZED TODAY

Concerned about viruses and bacteria in your business or commercial property?

Pestkil's Disinfection Service protects against these invisible threats to your and our community's safety

## Our medical grade products are

- US EPA-registered
- Environmentally friendly and bio degradable
- Hypoallergenic and non-flammable
- Non-abrasive to surfaces, leaving behind no visible residue or hard fumes
- Eliminates odours
- Used against coronavirus, norovirus, H1N1, SARS, MRSA, swine flu, E.coli, Salmonella & much more

Many companies can deep 'clean' your property providing limited levels of disinfection and decontamination.

Pestkil's Disinfection service and our trained technicians makes us equipped to provide you with the most **EFFECTIVE** protection. Pestkil uses industry tools and equipment specifically required to deliver this powerful application technology; applying minute disinfection droplets to hard contact surfaces & large areas in a short time-span. We are here to help you:

- Reopen your doors to the public
- Safeguard against the invisible dangers of viruses, bacteria and fungi
- Maintain the highest levels of Hygiene
- Bring you and your employees peace of mind
- Show your Brands commitment to safety
